Scenario Outline: Ensuring Dual Pricing Setting Is Successfully Enabled and Saved in Tonic BOH

- Given that the Manager "<user>" is currently logged into Tonic BOH
- And the customer click Payment tab
- And clicks the Types tab
- When the Manager selects the Dual Pricing icon from Configuration>Payment>Types navigation Header
- Then the Dual Pricing modal is displayed ~<title>"
- When I change the Dual Pricing setting to Enabled
- And I save the setting for dual pricing
- And verify update has been successful ~<message>"
- And verify that the modal window will be closed by taking to
- Then Verify Dual Pricing is Enabled

Examples: Enable Dual pricing
